FOREWORD

This volume contains, in alphabetical order by States and Cities the names of lawyers who represent financial institutions.

It is compiled semi-annually from information furnished by the banks, and it is our policy to list only one name in small towns, two names in towns of 10,000 and more in the financial centers of each state. In the great cities we give the names of attorneys for all important banks, as we find this method answers the needs of all who use our publication.

Listing is open to all whose names come to us from the banks regardless of whether they purchase a copy of the book. Those listees who do not subscribe for a copy of the book do not receive a copy of the book.

If the name of counsel for any particular bank which is not given, is desired it can be had upon application to the publisher.
